I am full-stack developer with a passion for creating scalable web applications and solving technical challenges. Seeking opportunities to contribute my skills and knowledge in a dynamic and innovative team environment. I have developed multiple projects including a fully functional e-commerce web and developed personal leadership skills and effective communication skills from working within teams. My goal is to work with a forward-thinking company that values innovation and encourages creativity. I aspire to contribute my skills in frontend and backend development to create impactful solutions that drive business growth and exceed customer expectations.
